### Commentary (06/2006)

Yellow target. Due to adverse weather and weather delays, the average NAS On Time Arrivals at the 35 OEP Airports during June 2006 was 83.23%, a 5.9% decrease from May 2006 (88.96) and a 4.3% decrease from June 2005 (86.97). The year-to-date total for on-time arrivals, at 87.92 percent, still exceeds target, but not by enough to be Green. NAS On Time performance for June 2006 did not meet the yearly target rate of 87.4%. Total operations were 1,291,948. This is a 1.2% decrease from May 2006 (1,307,046) and a 4.6% decrease from June 2005 (1,354,699). Total delays for June 2006 (48,148) increased 18.3% from May 2006 (40,699) and decreased 1.6% from June 2005 (48,922).
